WORK EXPERIENCE

UI/UX Designer

Feb 2024 – Aug 2026

UMortgage

- Sole designer on Tempo, UMortgage's award-winning proprietary CRM built from scratch to consolidate loan originators' scattered tools into one platform. Owned UX/product strategy across 6 major feature releases, 10+ smaller features, and dozens of enhancements. Now used by 300 loan originators, with 50–75 daily power users logging 1,200+ sales activities weekly.
- Enhanced & maintained the UMortgage website — creating new web experiences that drove SEO gains, traffic growth, and appearances in AI/LLM search results, while growing conversion to recruit LOs and funnel buyers into our pipeline
- Led a ground-up redesign of automated borrower loan-status emails — reworking a plain, confusing notification into a clear milestone tracker with next-step guidance — solo-executing UX, email development, and a phased rollout to all 300 loan originators company-wide

Graphic Designer

Jun 2021 – Feb 2024

UMortgage

- Created 300+ customizable marketing assets (social graphics, flyers, slide decks) for a 250+ person sales team's personal marketing efforts
- Crafted UMortgage's brand guidelines and spent 3+ years developing and scaling the company's brand and visual identity through a wide array of marketing materials and digital experiences
- Designed brand systems and marketing campaigns for 2 multi-day company events, each with 200+ attendees & 5+ limited run marketing campaigns

Design Fellow

Winter 2021

Presidential Inaugural Committee

- Collaborated with a team of designers to produce a wide range of materials — including social media content, livestream graphics, operational graphics, and promotional assets — for the 2021 Presidential Inauguration
